

Representative Mobile User Flow

Onboarding-first reference pack

1. Onboarding	Phone login → OTP verification
2. Learn	Home → subject selection → units → lesson path
3. Practice	Prelims → configure → mode → marking → MCQs
4. Improve	Progress → strength → comparison → revision
5. Extend	Mains → current affairs → short-form revision

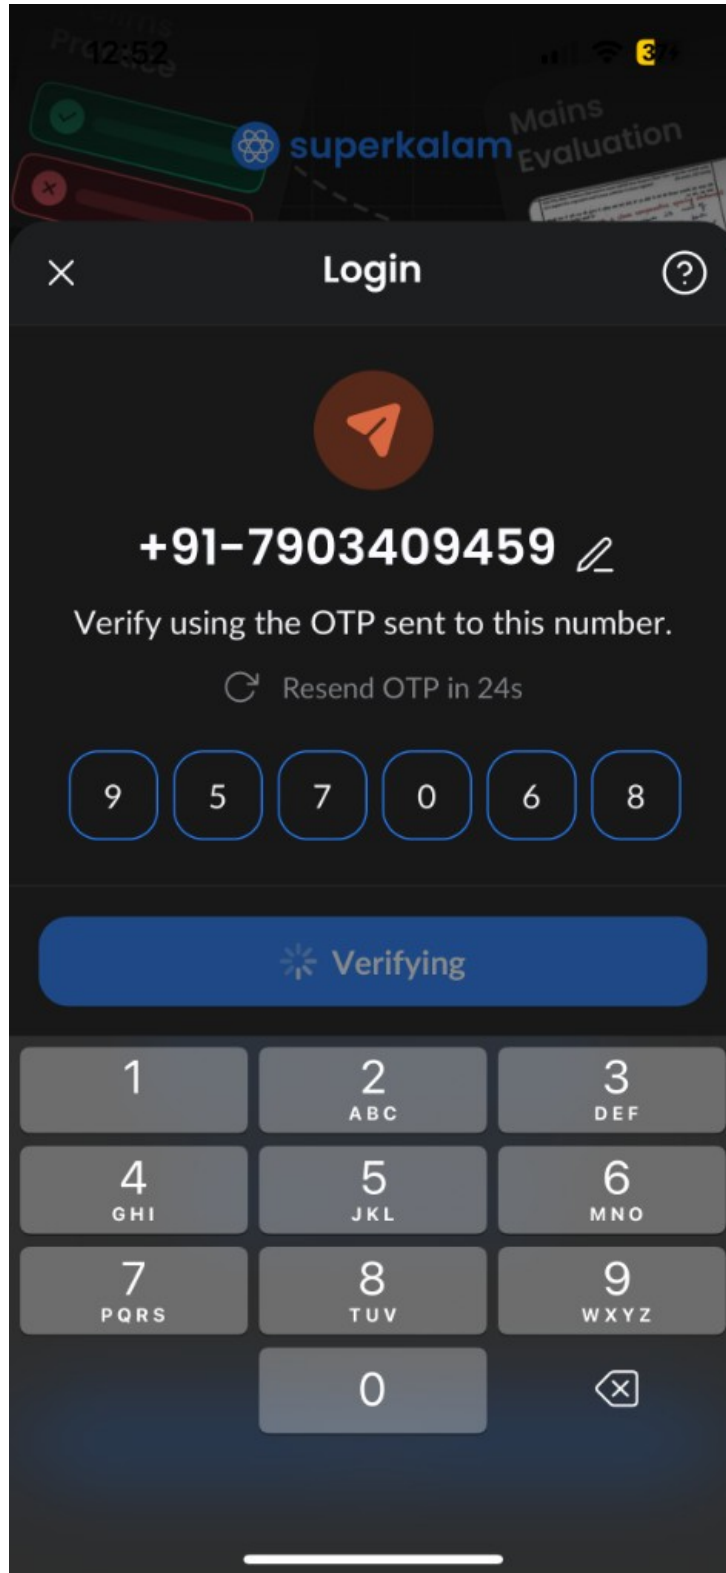

The following pages show each selected screen in the same order as the serial flow. Screens are third-party reference material and are included only for internal UX analysis.

01. Onboarding — phone login

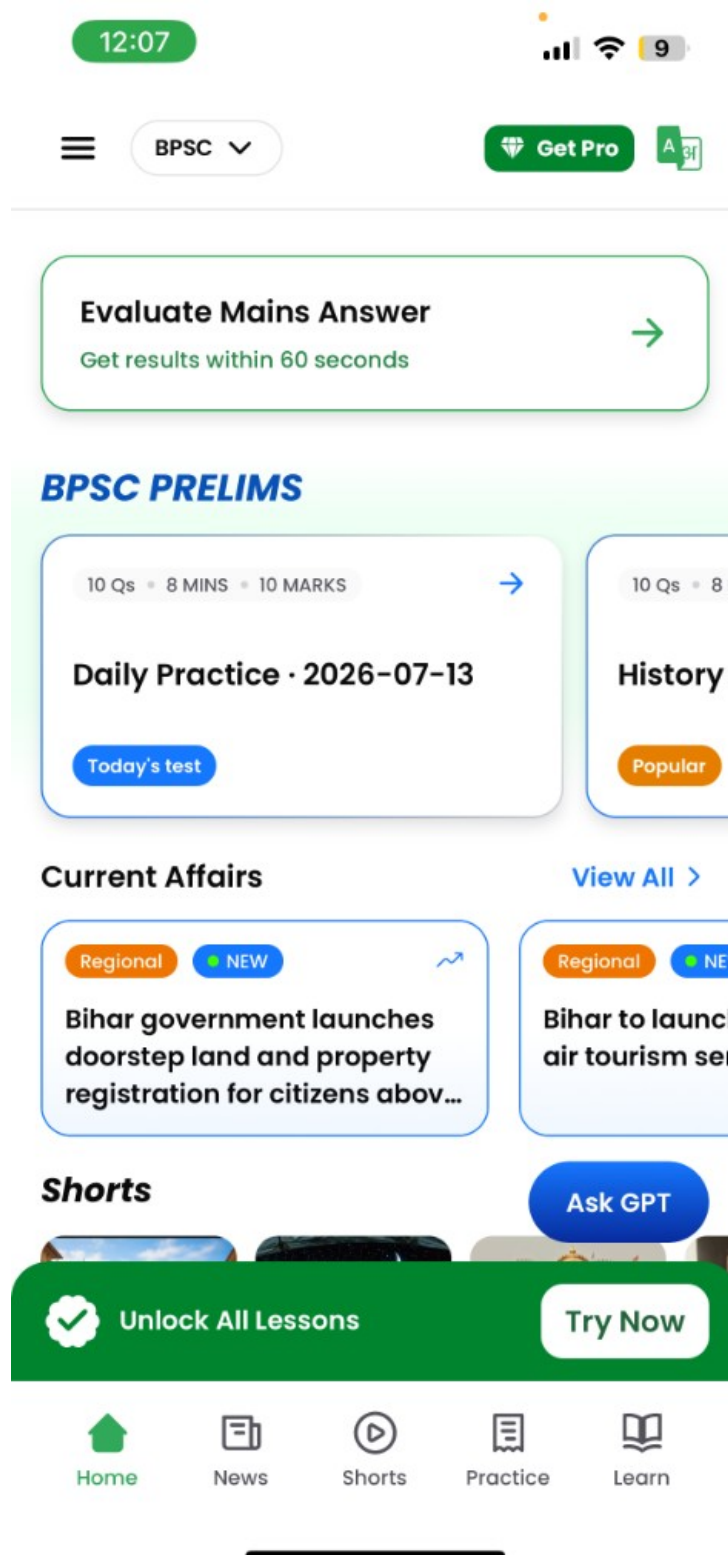

Start with a simple phone-number entry point before personalizing the learning journey.

02. Onboarding — OTP verification

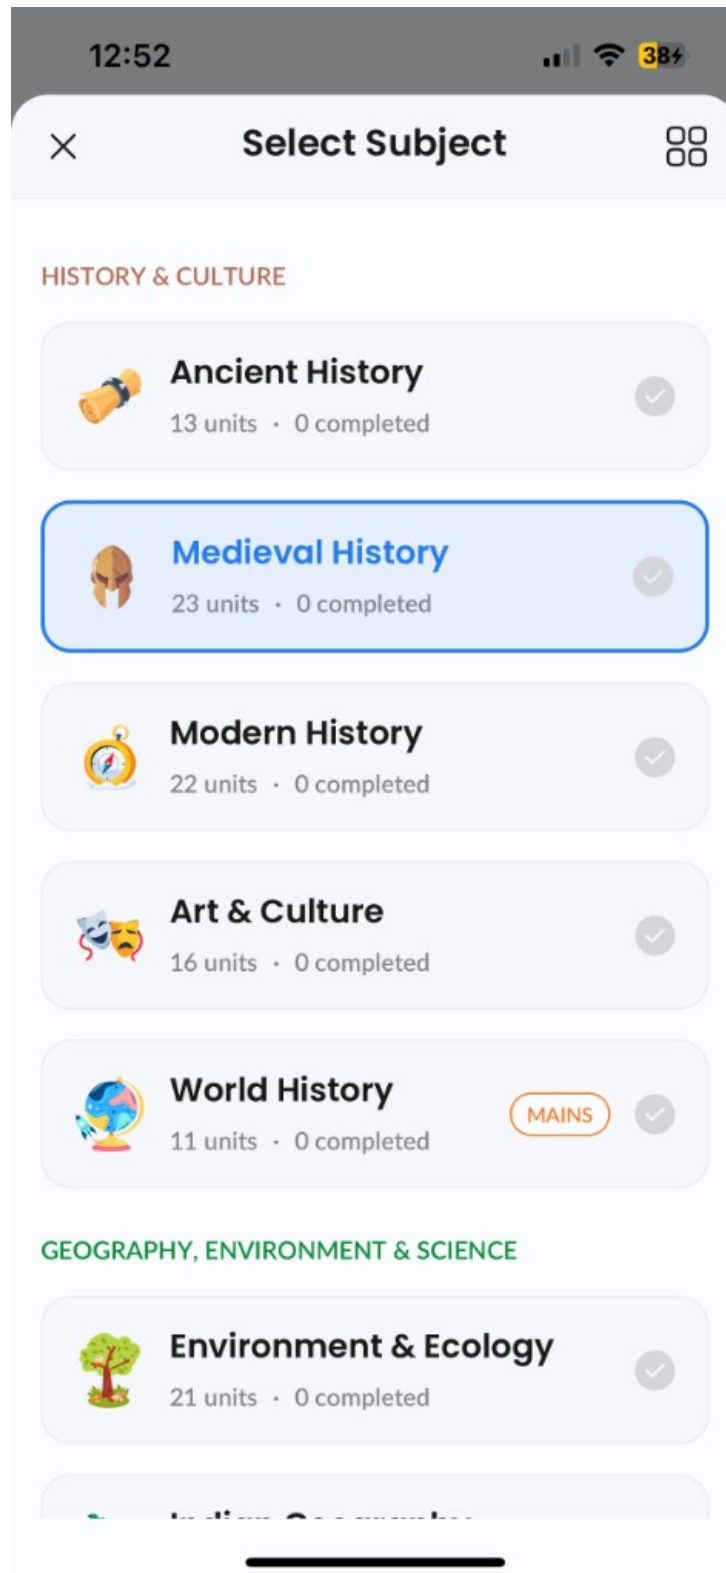

Verify the learner securely and make resend, edit-number, and error states clear.

03. Home dashboard

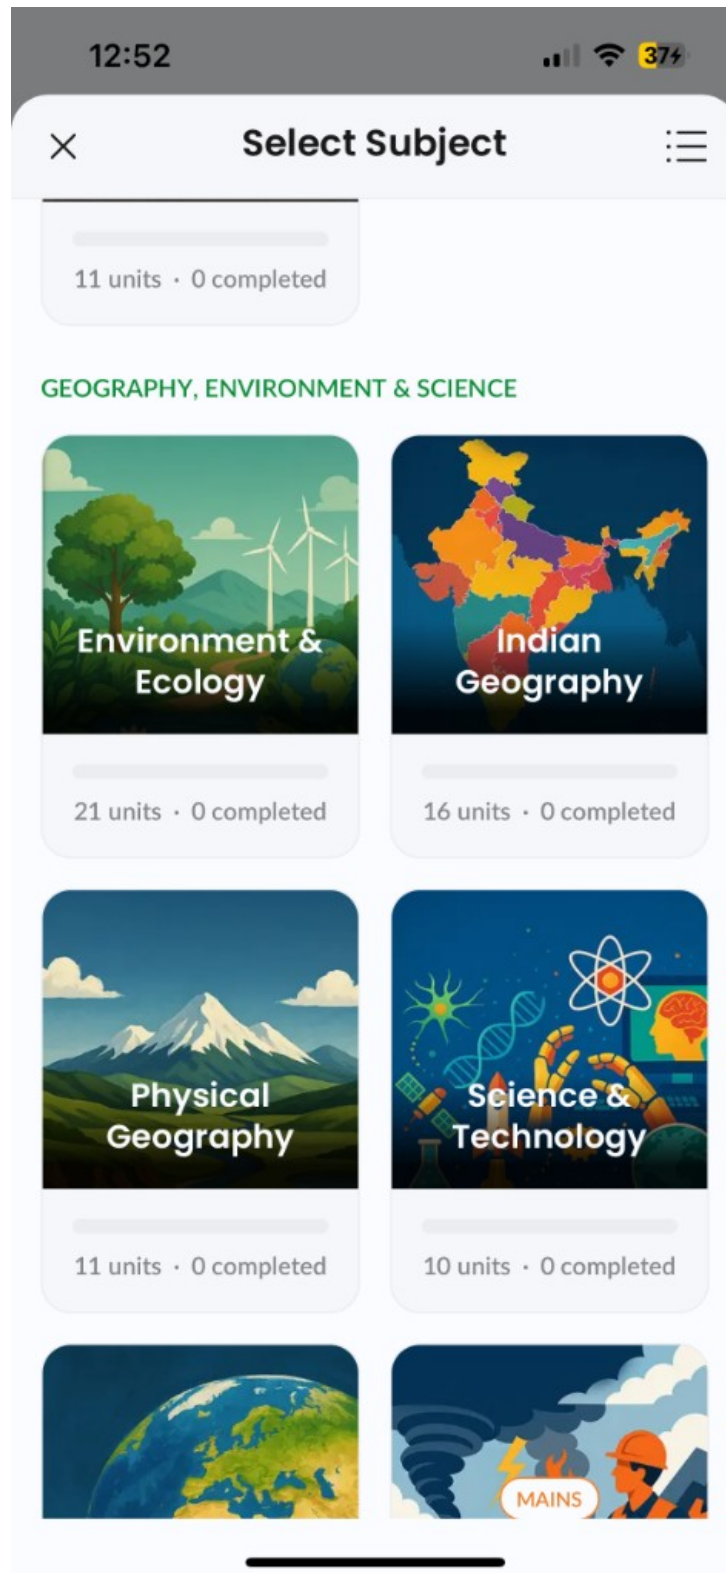

Offer a single next action alongside direct paths to learning, practice, and current affairs.

04. Subject selection — list

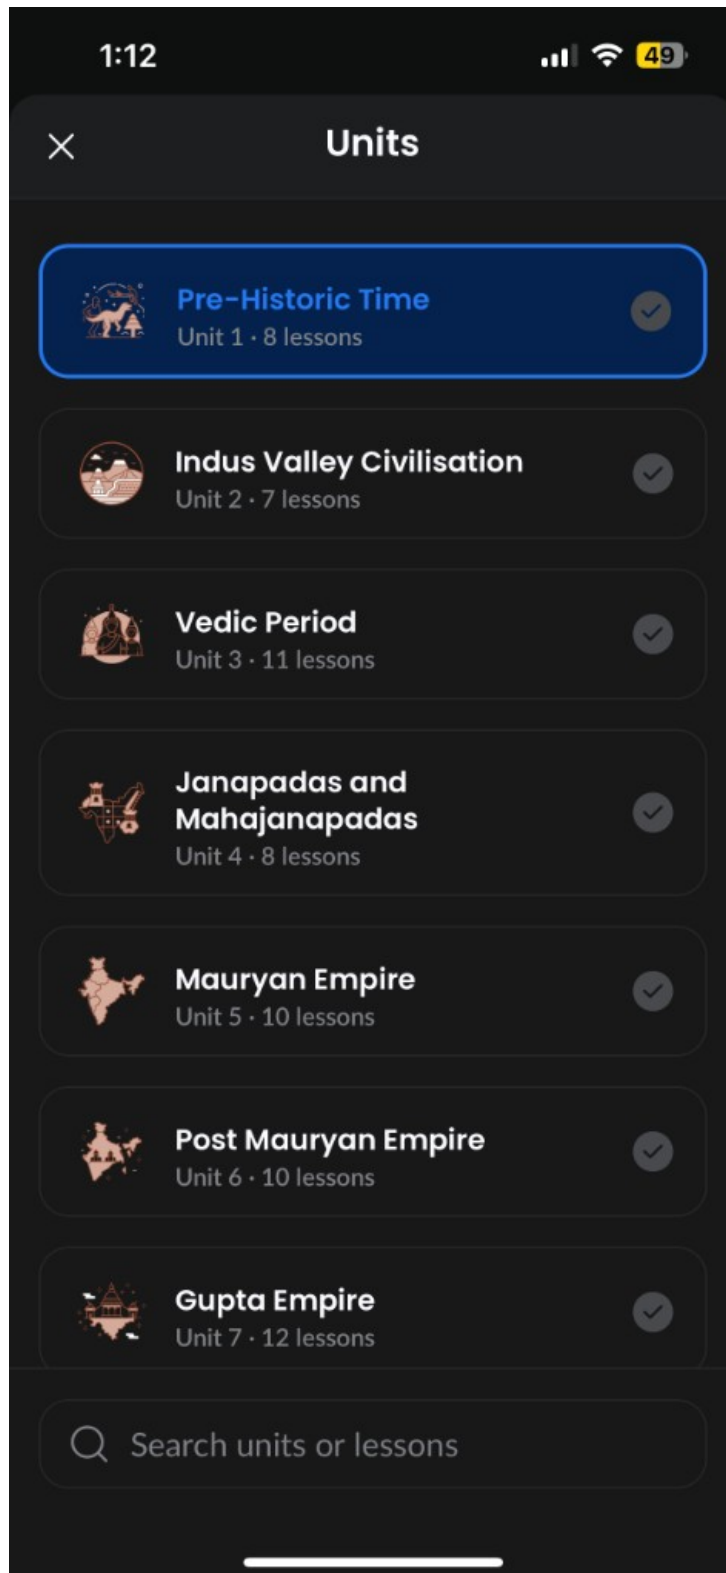

Group the syllabus into clear BPSC subject domains with visible unit counts.

05. Subject selection — grid

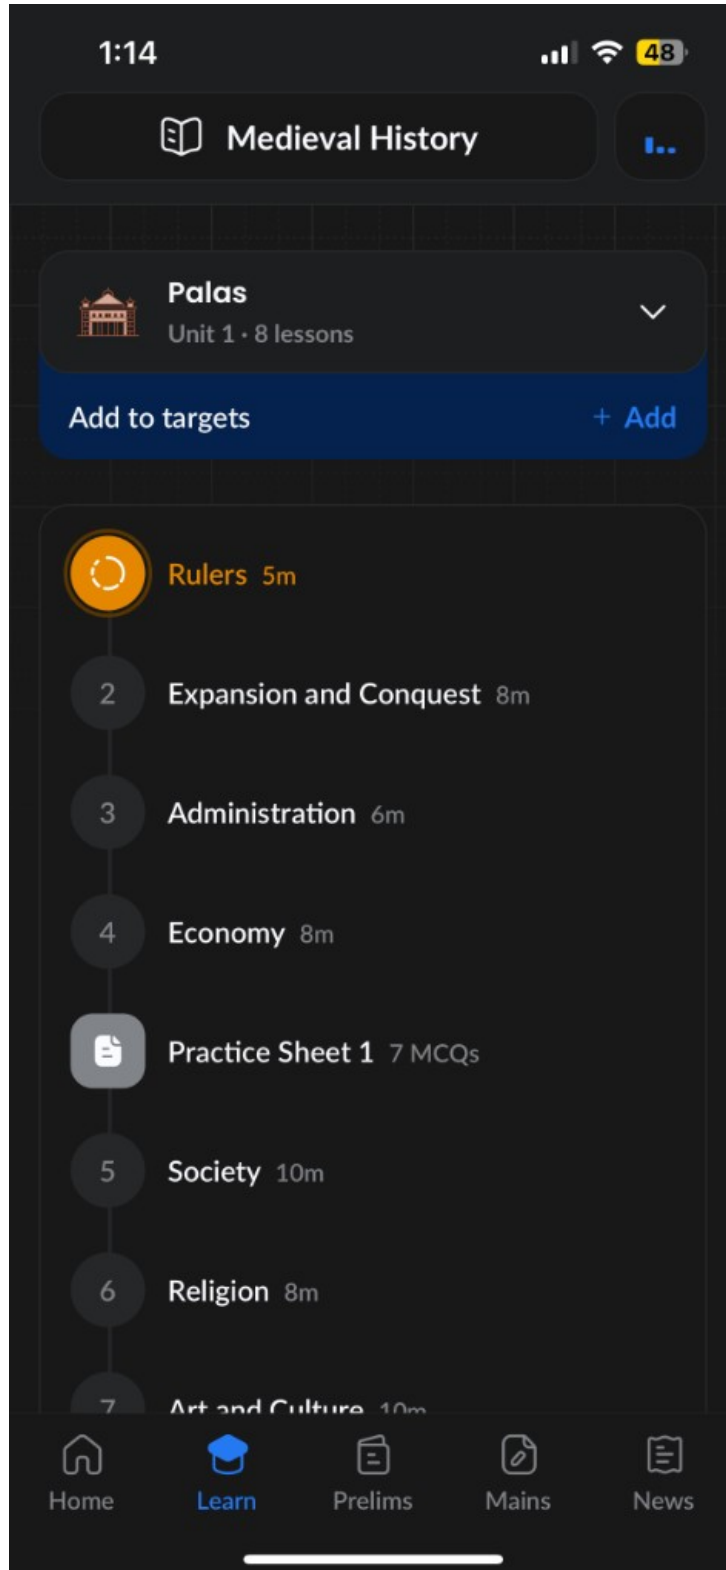

Provide a visual alternative for scanning subjects, while retaining an accessible list view.

06. Unit catalog

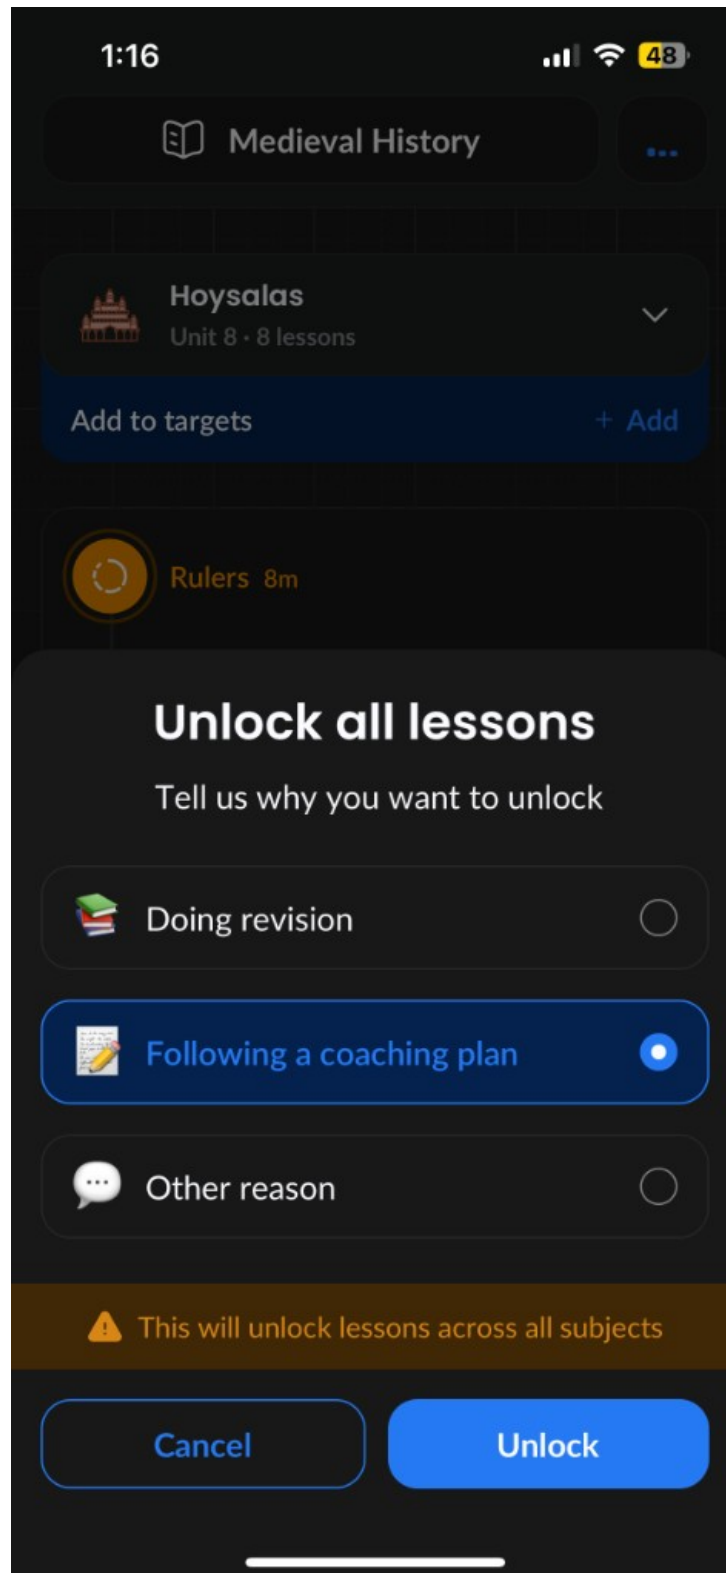

Break the syllabus into manageable units and show progress at the right level.

07. Ordered lesson path

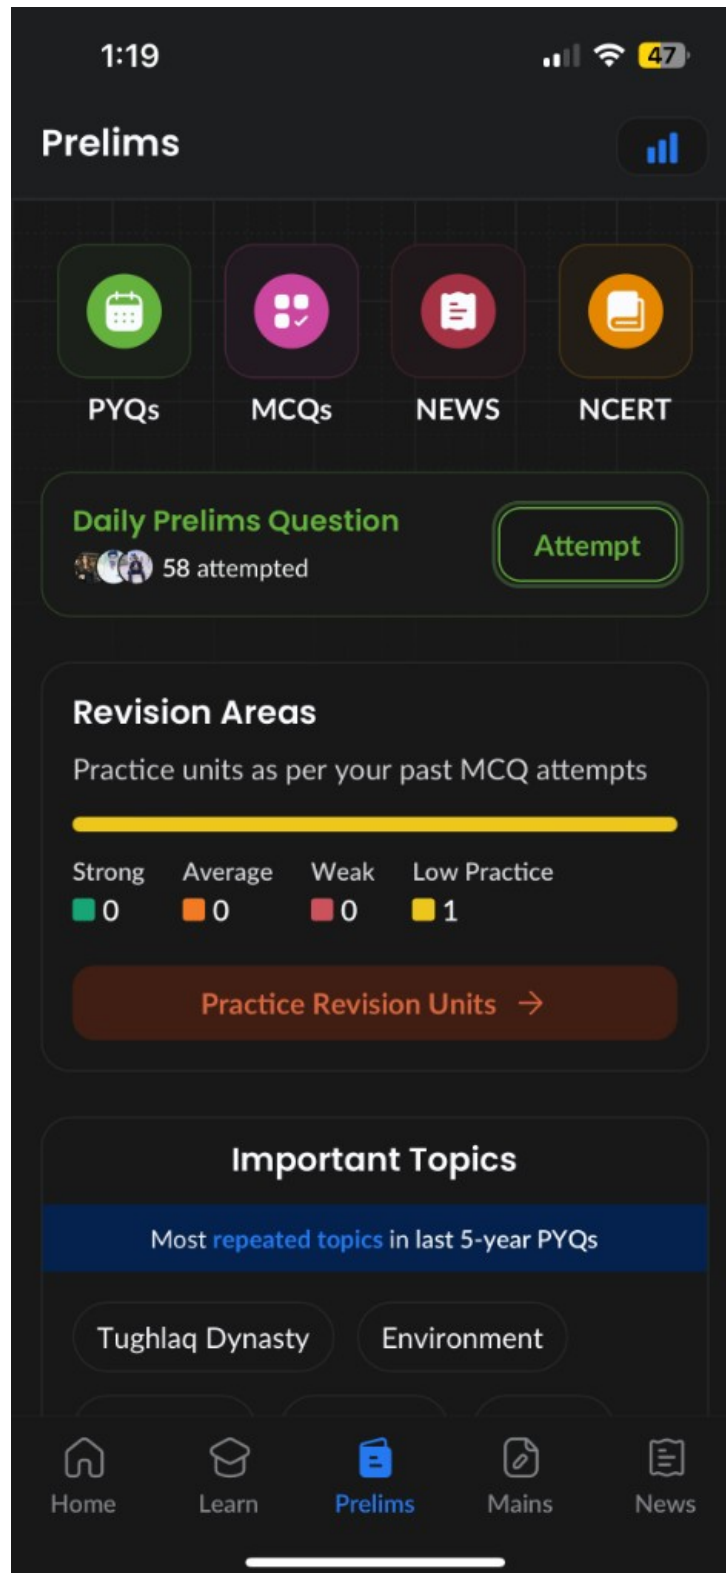

Sequence lessons and place practice at meaningful learning checkpoints.

08. Optional lesson gate

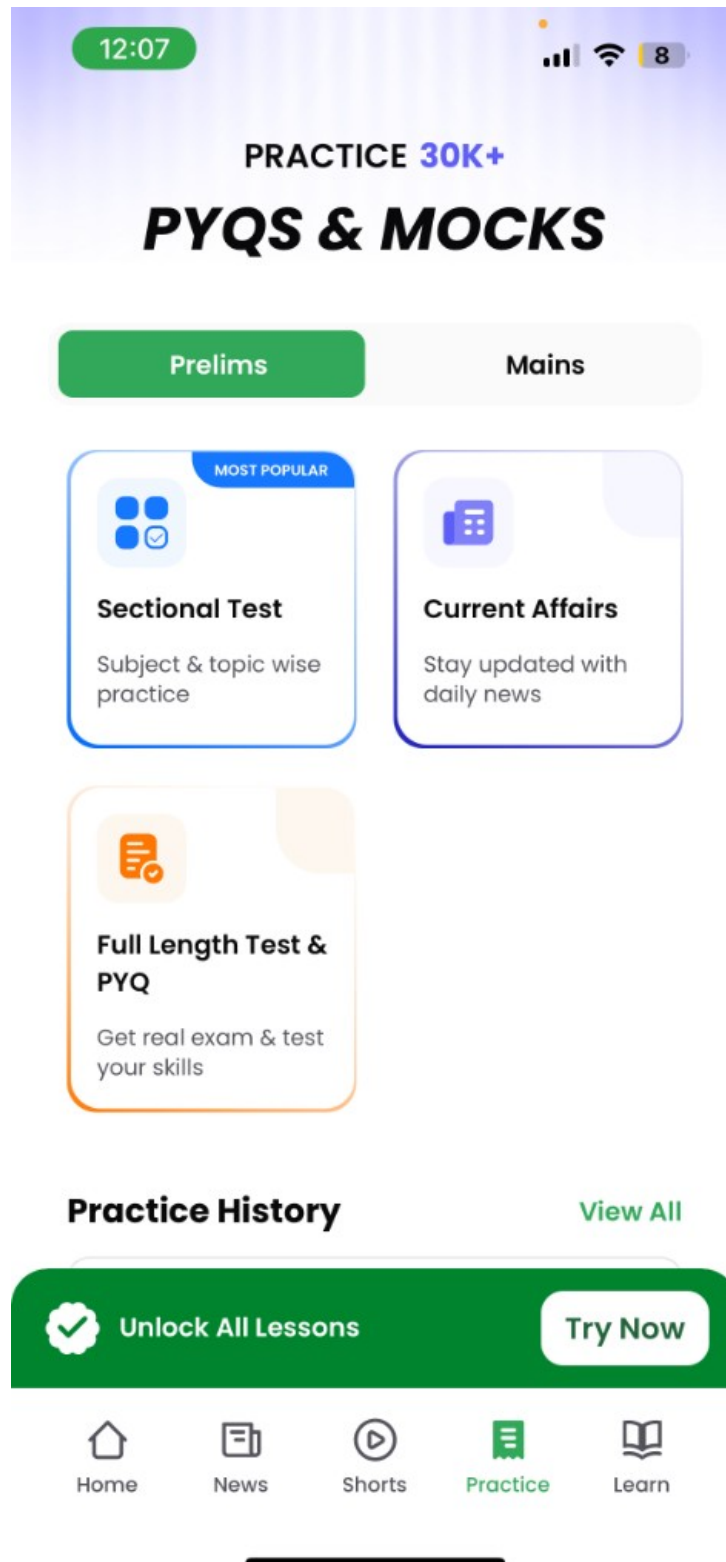

Use prerequisites only where educationally necessary and keep core reading accessible.

09. Prelims workspace

Give Prelims its own destination for daily action, PYQs, timed practice, and revision.

10. Practice hub

Let learners choose sectional, current-affairs, and full-length practice paths.

11. Practice configuration

172 questions available

Start Practicing

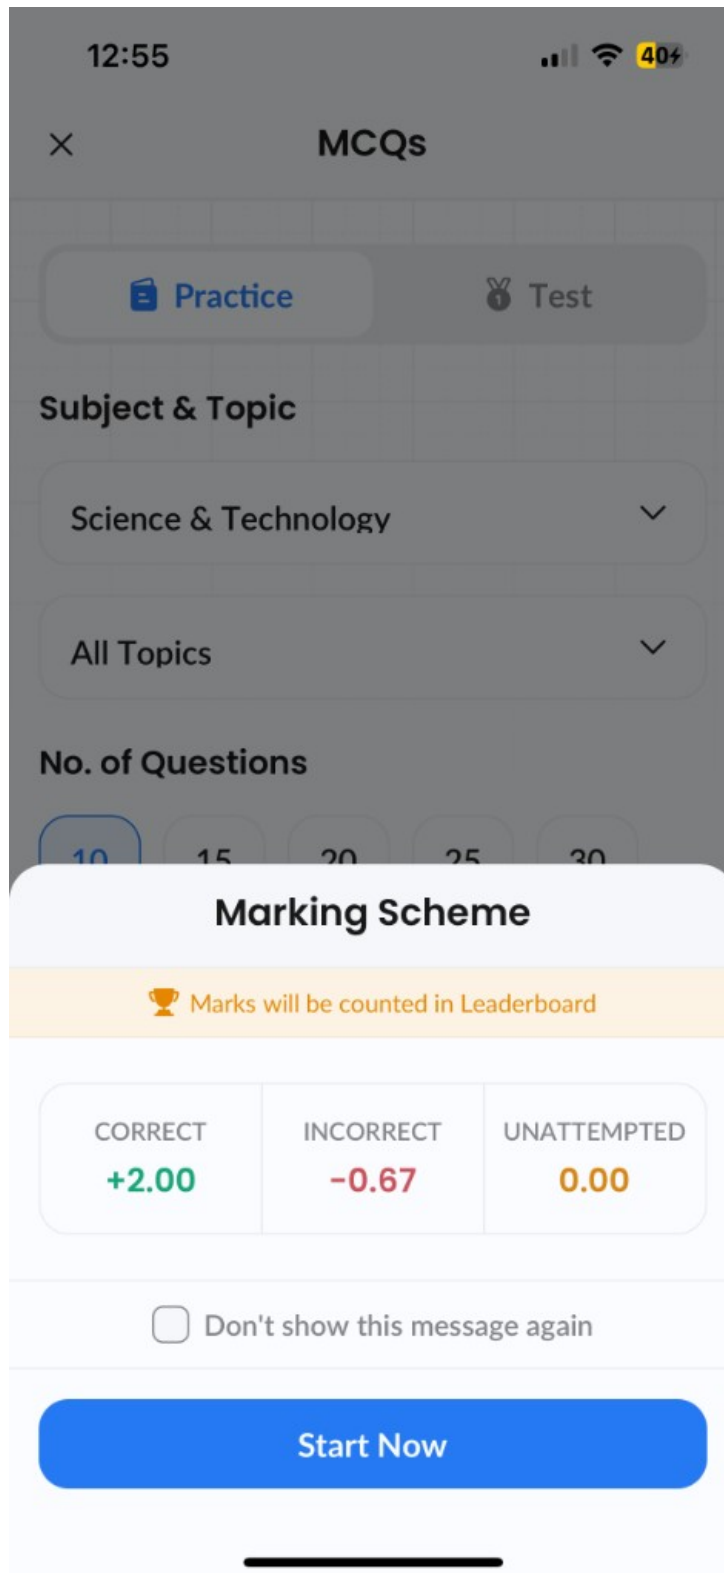

Allow filters for stage, subject, topic, PYQ years, quantity, and attempt history.

12. Practice versus test

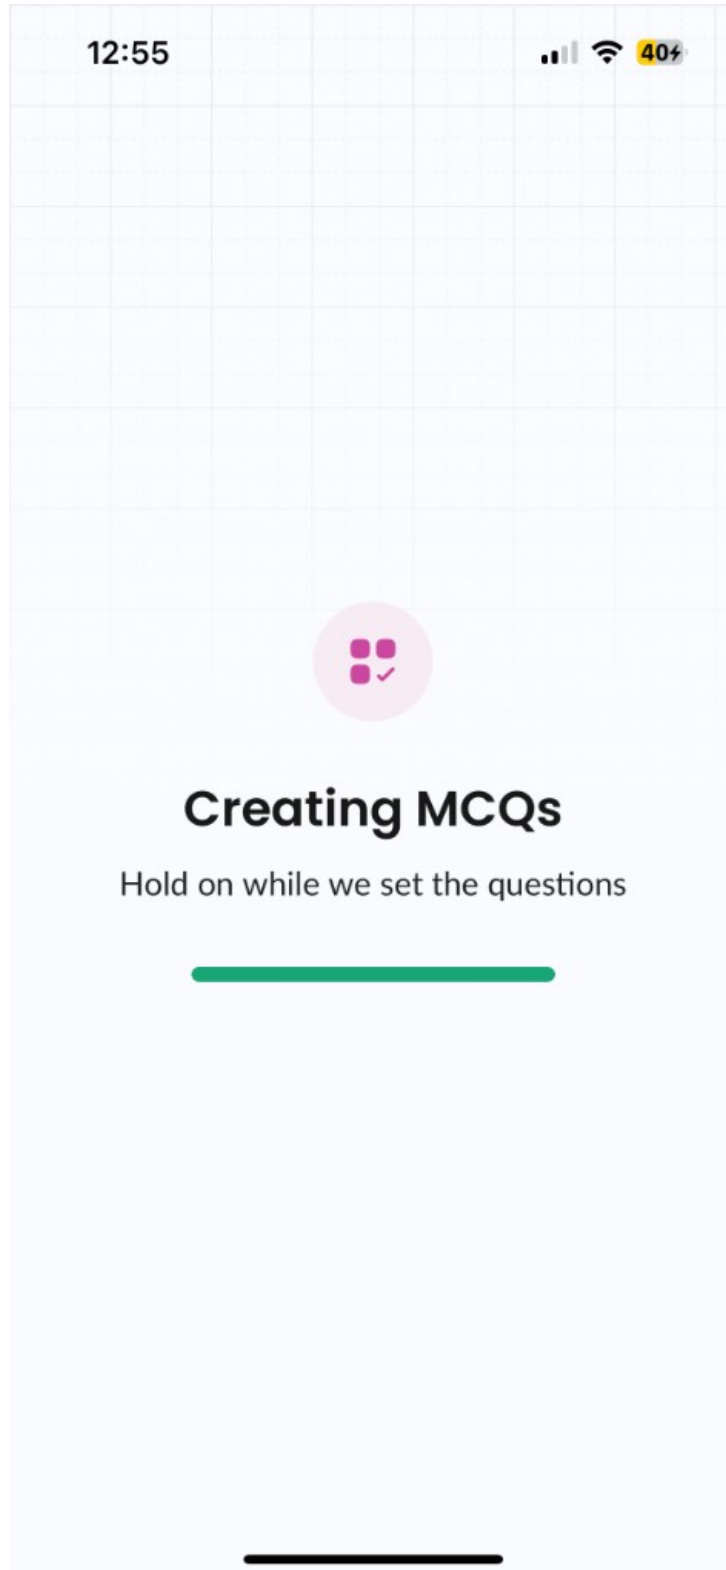

Set expectations by separating immediate-feedback learning from timed exam simulation.

13. Marking scheme

Show the current official BPSC scoring rule before a test begins.

14. Preparing the question set

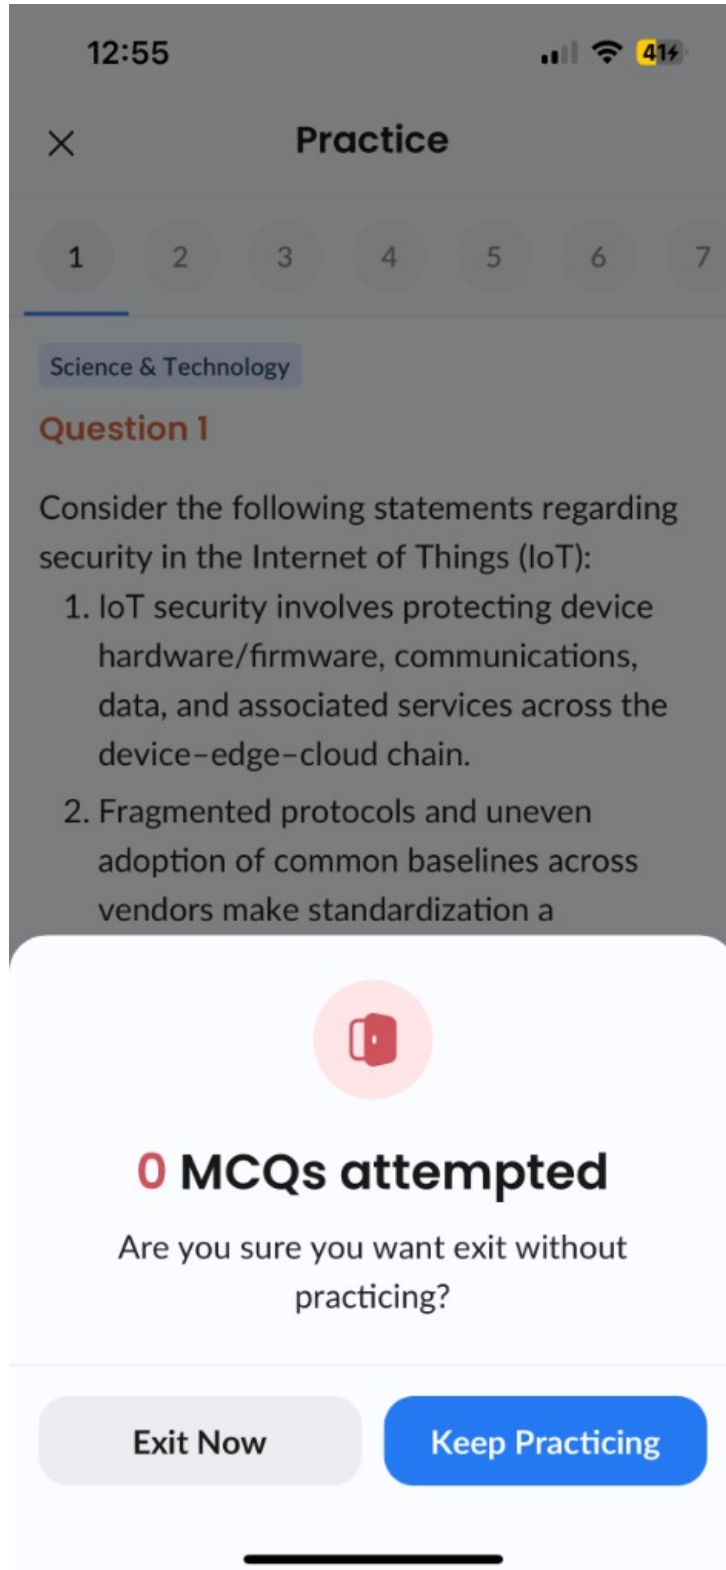

Use a clear loading state while the deterministic, session-backed question set is prepared.

15. MCQ attempt

Keep each question focused and preserve question source, context, and recoverable progress.

16. Safe practice exit

Protect against accidental exits while saving a resumable attempt.

17. PYQ filter

The screenshot shows a mobile app interface for filtering Previous Year Questions (PYQs). At the top, the status bar displays the time 12:55, signal strength, Wi-Fi, and 40% battery. The app header includes a close button (X), the title 'PYQs', and an information icon (i). Below the header are two dropdown menus: 'All Subjects' and 'All Topics'. The 'Year' section features a 'Last 5 Years' button (highlighted in blue) and an 'All Years (2011-26)' button. Below these are buttons for '2026', '2025', and a 'Select Year' dropdown. The 'No. of Questions' section has buttons for '10' (highlighted in blue), '15', '20', '25', and '30'. The 'Question Type' section includes a '500 MCQS AVAILABLE' badge and buttons for 'All' (highlighted in blue), 'Unattempted', 'Attempted', 'Previously Incorrect', and 'Bookmarks'. A summary bar at the bottom of the filter section shows a calendar icon and '500 questions available'. A large blue 'Start Practicing' button is at the very bottom.

500 questions available

Start Practicing

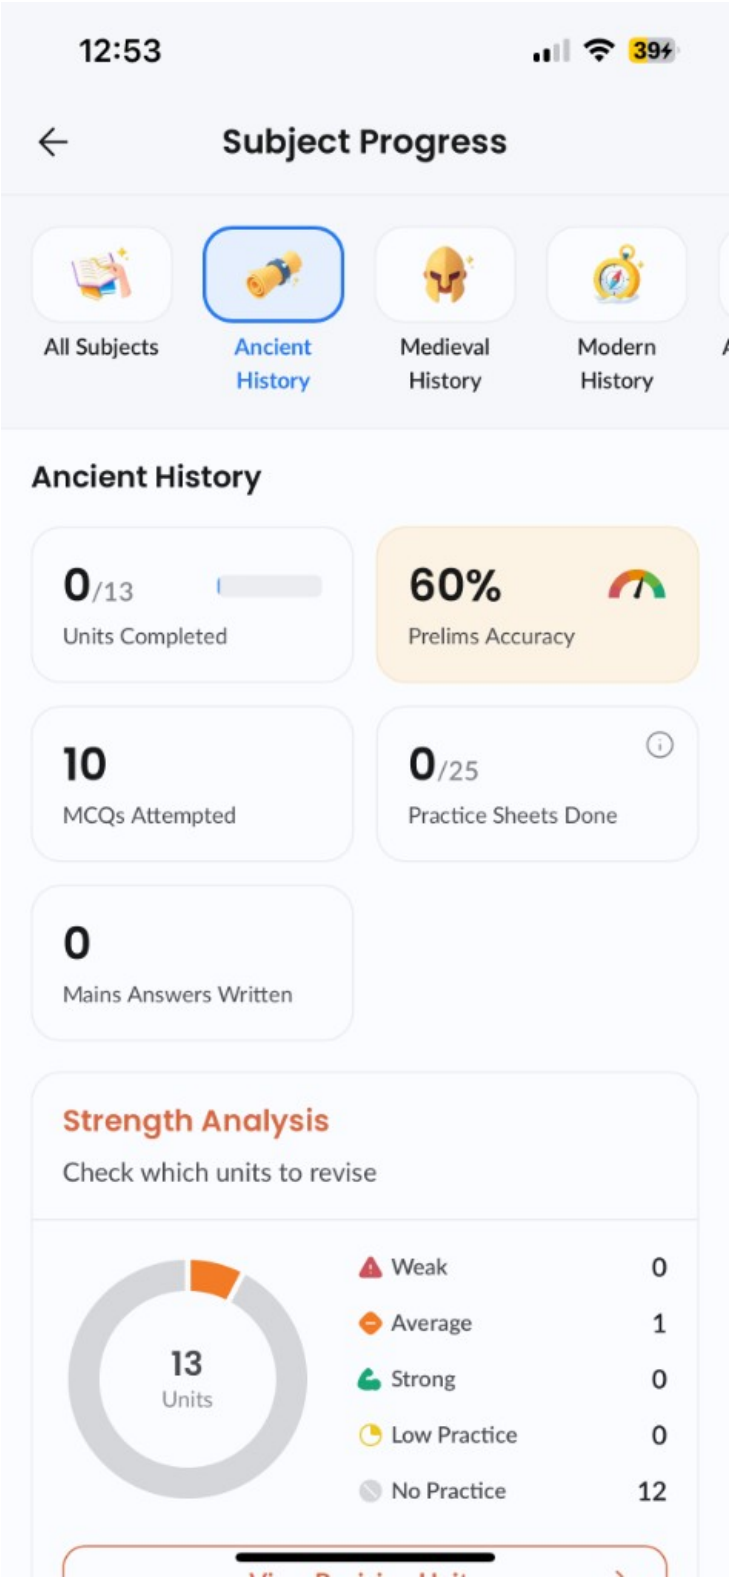

Enable filters for BPSC cycle, subject, topic, bookmarks, and incorrect-only questions.

18. Overall progress

Bring completion, Prelims accuracy, MCQ attempts, and Mains activity into one honest view.

19. Subject strength

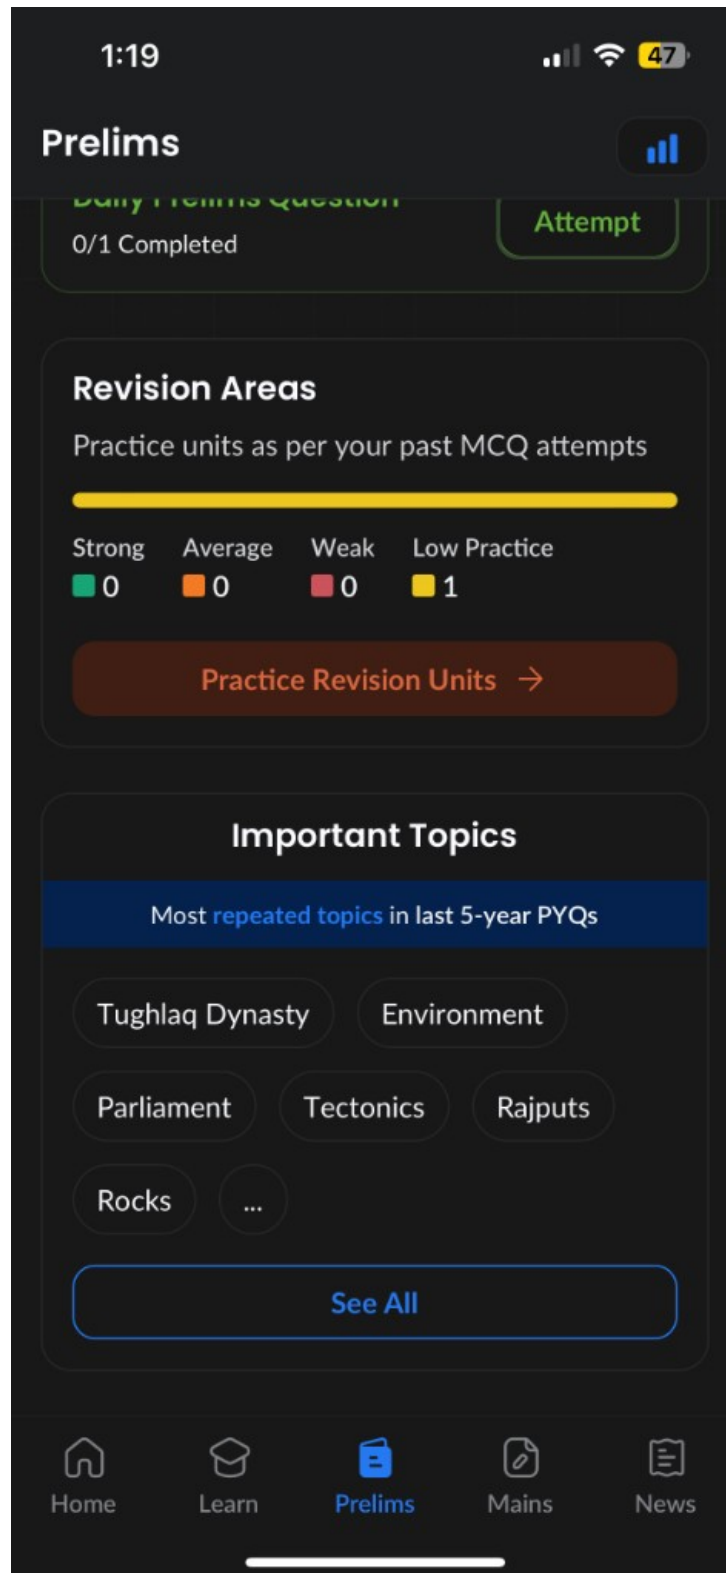

Turn accuracy, recency, and topic priority into an explainable subject-level revision signal.

20. Progress comparison

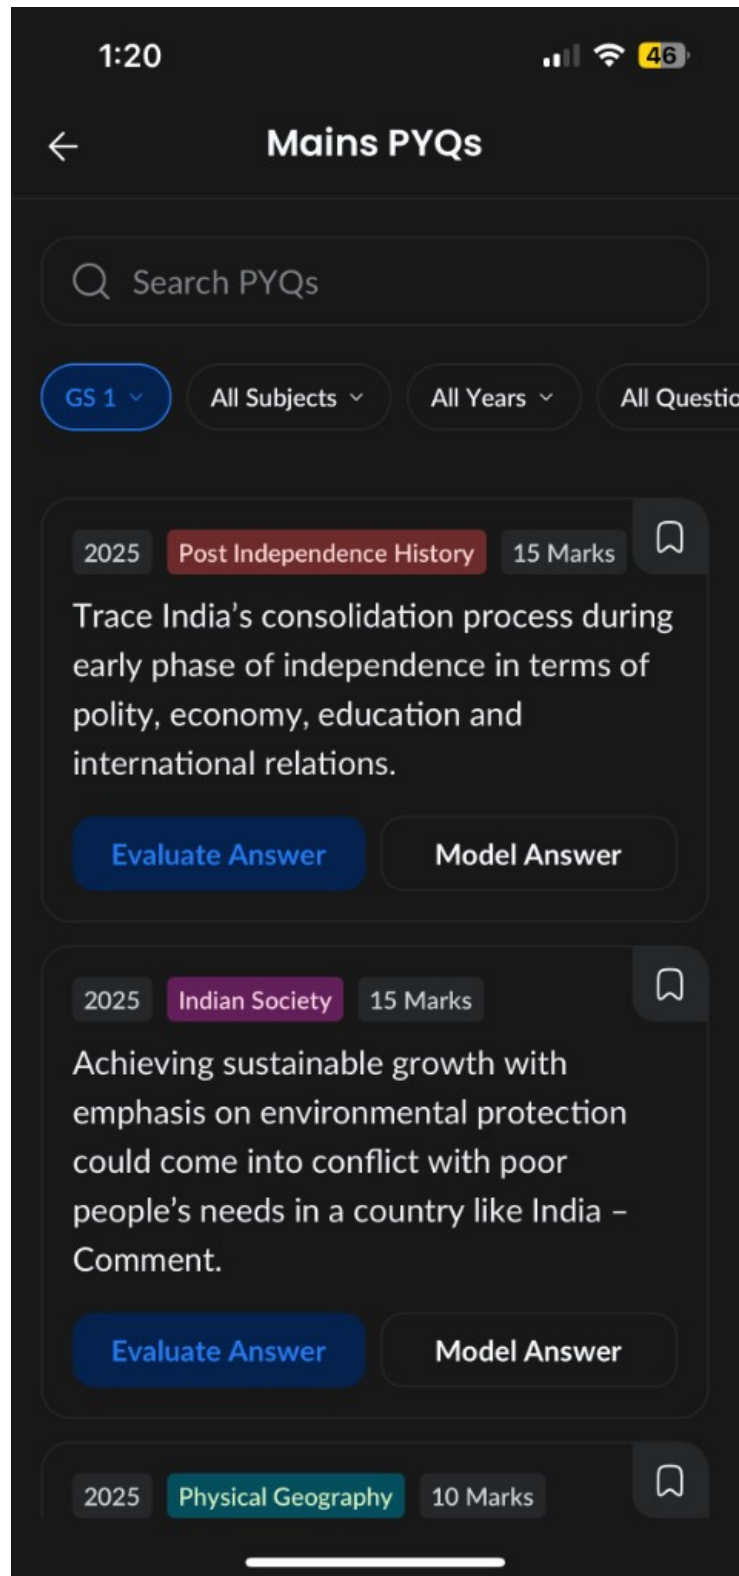

Use optional comparisons carefully to motivate practice without unverifiable or shaming claims.

21. Revision queue

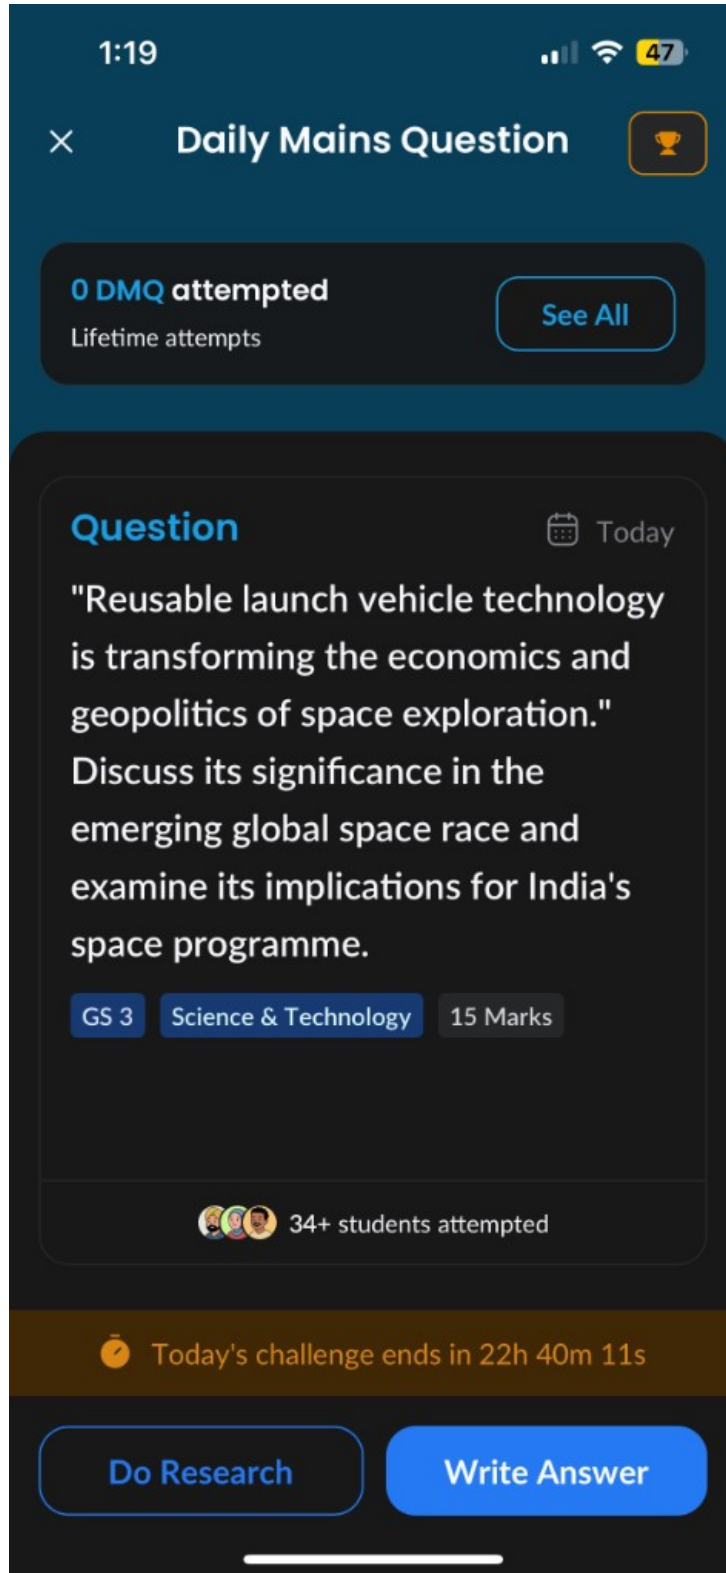

Prioritize revision using learner performance and validated BPSC PYQ frequency.

22. Mains PYQs

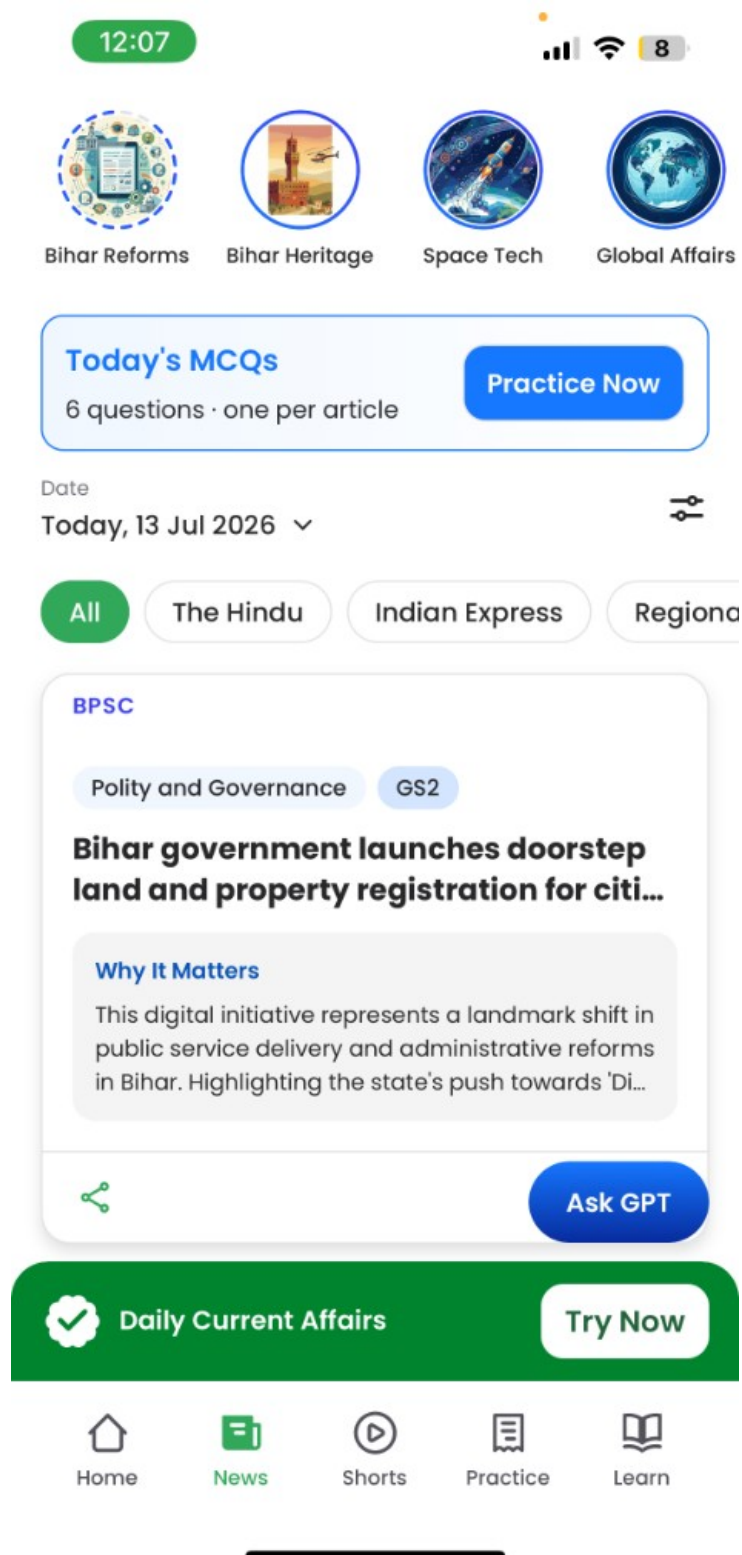

Make Mains questions searchable by subject, topic, year, marks, and pattern.

23. Daily Mains question

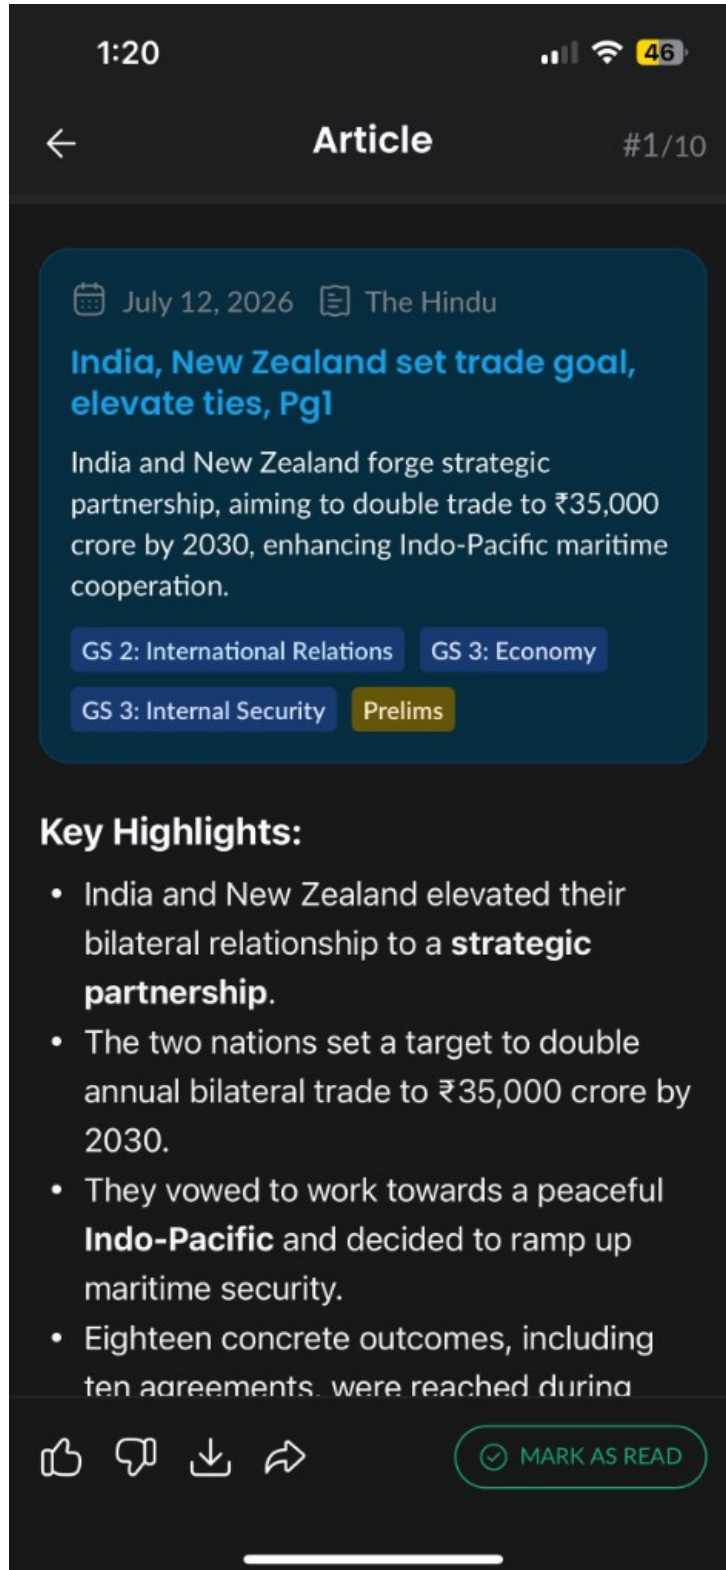

Reduce choice overload with one BPSC daily prompt, a cited framework, and saved drafts.

24. Current-affairs feed

Organize reviewed Bihar, India, and world events into exam-relevant themes.

25. Current-affairs article

Expand an item with cited highlights and source-backed explanatory detail.

26. Current-affairs practice

Start Practicing

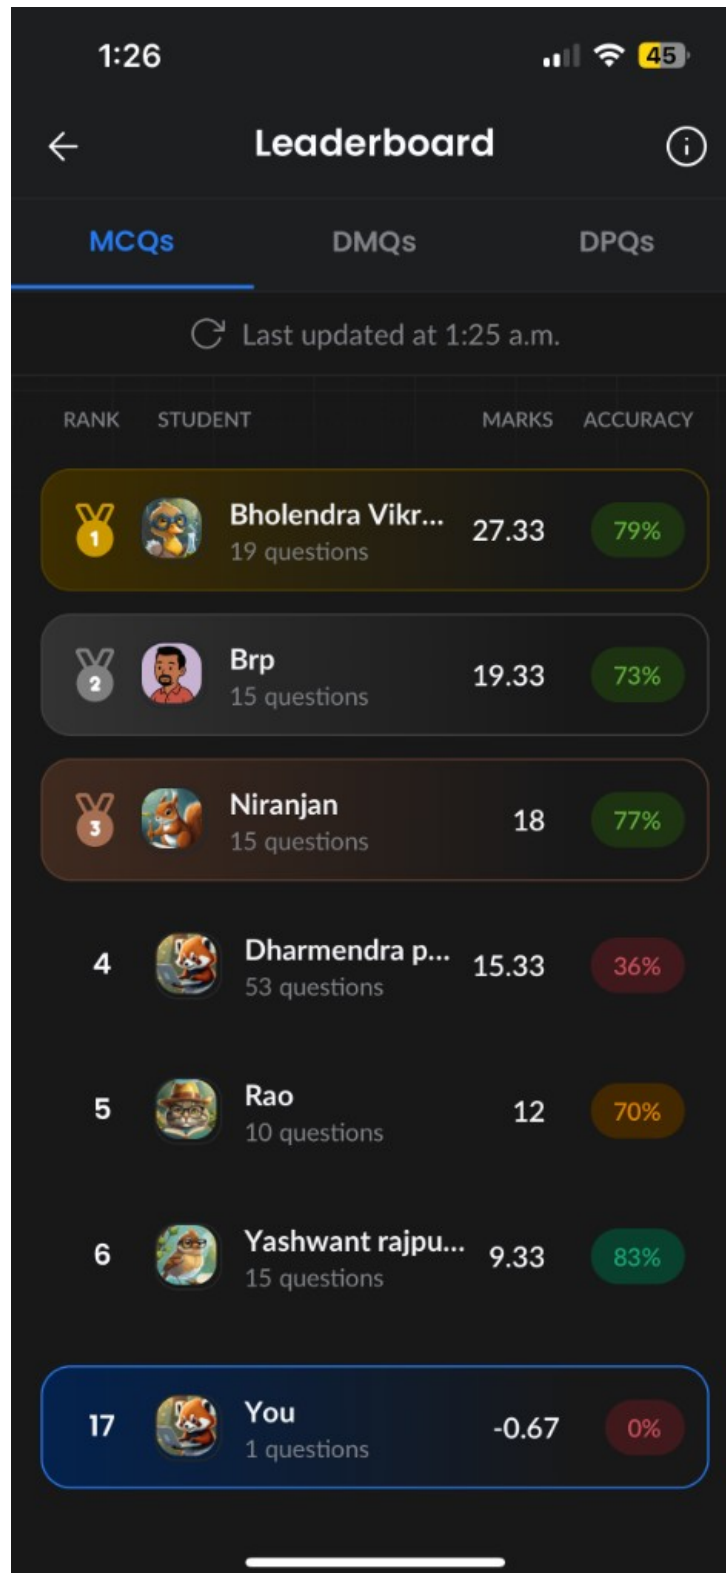

Convert reviewed current-affairs content into filters and a relevant practice set.

27. Short-form revision

Use short media only as source-linked discovery and revision support, not as a reading substitute.

28. Optional leaderboard

Add competition only after learning-loop metrics are healthy and scoring is explainable.
